

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

## PLATFORMS OF POLITICAL ORGANIZATIONS, NATIONAL AND OHIO STATE, ADOPTED DURING THE YEAR 1900.

### NATIONAL REPUBLICAN PLATFORM.

[ADOPTED IN NATIONAL CONVENTION AT PHILADELPHIA, PENN., JUNE 20, 1900.]

The Republicans of the United States, through their chosen representatives, met in national convention, looking back upon an unsurpassed record of achievement and looking forward into a great field of duty and opportunity; and, appealing to the judgment of their countrymen, make these declarations:

#### PREAMBLE.

The expectation in which the American people, turning from the Democratic party, intrusted power four years ago to a Republican Chief Magistrate and a Republican Congress, has been met and satisfied. When the people then assembled at the polls, after a term of Democratic legislation and administration, business was dead, industry paralyzed, and the national credit disastrously impaired. The country's capital was hidden away and its labor distressed and unemployed. The Democrats had no other plan with which to improve the ruinous conditions, which they had themselves produced, than to coin silver at the ratio of 16 to 1.

#### PLEDGES FILLED.

The Republican party, denouncing this plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of two legislative measures—a protective tariff and a law making gold the standard of value.

The people, by great majorities, issued to the Republican party a commission to enact these laws. This commission has been executed, and the Republican promise is redeemed.

Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer controversy as to the value of any government obligations. Every American dollar is a good dollar or its assured equivalent, and American credit stands higher than that of any nation. Capital is fully employed and everywhere labor is profitably occupied. No single fact can more strikingly tell the story of what Republican government means to the country than this—that while during the whole period of 107 years, from 1790 to 1897, there was an excess of exports over imports of only \$383,028,497, there has been in the short three years of the present Republican admin-

istration an excess of exports over imports in the enormous sum of \$1,483,537,094.

#### TRIUMPH IN WAR.

And while the American people, sustained by this Republican legislation, have been achieving these splendid triumphs in their business and commerce, they have conducted and in victory concluded a war for liberty and human rights. No thought of national aggrandizement tarnished the high purpose with which American standards were unfurled.

It was a war unsought and patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and sea bore equal tribute to the courage of American soldiers and sailors and to the skill and foresight of Republican statesmanship. To ten millions of the human race there was given "a new birth of freedom," and to the American people a new and noble responsibility.

#### TRUE TO MCKINLEY.

We indorse the administration of William McKinley. Its acts have been established in wisdom and in patriotism, and at home and abroad it has distinctly elevated and extended the influence of the American nation.

Walking untried paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring, and deserving the confidence of his countrymen.

In asking the American people to indorse this Republican record and to renew their commission to the Republican party, we remind them of the fact that the menace to their prosperity has always resided in Democratic principles and no less in the general incapacity of the Democratic party to conduct public affairs.

The prime essential of business prosperity is public confidence in the good sense of the government and in its ability to deal intelligently with each new problem of administration and legislation. That confidence the Democratic party has never earned. It is hopelessly inadequate, and the country's prosperity when Democratic success at the polls is announced halts and ceases in mere anticipation of Democratic blunders and failures.

#### GOLD STANDARD.

We renew our allegiance to the principle of the gold standard and declare our confidence in the wisdom of the legislation of the Fifty-sixth Congress, by which the parity of all our money and the stability of our currency on a gold basis have been secured.

We recognize that interest rates are a potent factor in production and business activity, and for the purpose of further equalizing and of

further lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season and of all sections to be promptly met in order that trade may be evenly sustained, labor steadily employed, and commerce enlarged.

The volume of money in circulation was never so great per capita as it is to-day. We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly Republican legislation may seem to have secured the country against the peril of base and discredited currency, the election of a Democratic President could not fail to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The Democratic party must be convinced that the American people will never tolerate the Chicago platform.

#### AGAINST TRUSTS.

We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production, or to control prices, and favor such legislation as will effectually restrain and prevent all such abuses, protect and promote competition, and secure the rights of producers, laborers, and all who are engaged in industry and commerce.

#### PROTECTION.

We renew our faith in the policy of protection to American labor. In that policy our industries have been established, diversified and maintained. By protecting the home market the competition has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates, higher now than ever before, always distinguishing our working people in their better conditions of life from those of any competing country.

Enjoying the blessings of American common school, secure in the right of self-government, and protected in the occupancy of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world. We favor the associated policy of reciprocity so directed as to open our markets on favorable terms for what we do not ourselves produce in return for free foreign markets.

#### FOR LABOR.

In the further interest of American workmen we favor a more effective restriction of the immigration of cheap labor from foreign lands,

the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor as against contract convict labor, and an effective system of labor insurance.

#### MERCHANT MARINE.

Our present dependence upon foreign shipping for nine-tenths of our foreign carrying is a great loss to the industry of this country. It is also a serious danger to our trade, for its sudden withdrawal in the event of European war would seriously cripple our expanding foreign commerce. The national defense and naval efficiency of this country, moreover, supply a compelling reason for legislation which will enable us to recover our former place among the trade carrying fleets of the world.

#### PENSIONS.

The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for the survivors and for the widows and orphans of those who have fallen in the country's wars.

The pension laws, founded in this sentiment, should be liberal and should be liberally administered, and preference should be given wherever practicable with respect to employment in the public service to soldiers and sailors and to their widows and orphans.

#### CIVIL SERVICE.

We commend the policy of the Republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its effort to secure for public service in Cuba, Porto Rico, Hawaii, and the Philippine Islands only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined as far as practicable to their inhabitants.

It was the plain purpose of the fifteenth amendment to the constitution to prevent discrimination on account of race or color in regulating the elective franchise. Devices of State governments, whether by statutory or constitutional enactment, to avoid the purpose of this amendment are revolutionary and should be condemned.

Public movements looking to a permanent improvement of the roads and highways of the country meet with our cordial approval, and we recommend this subject to the earnest consideration of the people and of the Legislatures of the several States.

We favor the extension of the rural free delivery service wherever its extension may be justified.

In further pursuance of the constant policy of the Republican party securing to our undivided control the most important island of the

Samoan group and the best harbor in the Southern Pacific every American interest has been safeguarded.

We approve the annexation of the Hawaiian Islands to the United States.

We commend the part taken by our government in the peace conference at The Hague.

#### BOER WAR.

We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of The Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African Republic.

While the American government must continue the policy prescribed by Washington, affirmed by every succeeding President and imposed upon us by The Hague treaty, of non-intervention in European controversies, the American people earnestly hope that a way may soon be found, honorably alike to both contending parties, to determine the strife between them.

#### PHILIPPINES.

In accepting by the treaty of Paris the just responsibility of our victories in the Spanish war, the President and the Senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the Western Indies and in the Philippine Islands.

That course created our responsibility before the world, and with the unorganized population whom our intervention had freed from Spain, to provide for the maintenance of law and order, and for the establishment of good government, and for the performance of international obligations.

Our authority could not be less than our responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection, and to confer the blessings of liberty and civilization upon all the rescued peoples.

The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law.

#### PLEDGE TO CUBA.

To Cuba independence and self-government were assured in the same voice by which war was declared, and to the letter this pledge should be performed.

The Republican party upon its history and upon this declaration of its principles and policies confidently invokes the considerate and approving judgment of the American people.

## OHIO REPUBLICAN PLATFORM, 1900.

The Republicans of Ohio, in convention assembled, hereby renew their faith in and allegiance to the declaration of principles made by the Republican party at St. Louis in 1896, and declare to-day the same to be in all respects the true principles of the Republican party.

Under its wise and beneficent administration the Republican party passed into law the Dingley tariff bill and restored prosperity to the country.

## FOREIGN TRADE.

The foreign trade of the United States is today greater and more profitable than ever before, and in this field of effort the United States is outstripping all the nations of the world.

We cordially indorse the wise and patriotic and memorable administration of President McKinley, whose signal achievements in war and peace, in statesmanship and diplomacy, mark an epoch in the history of this nation, and whose brilliant success justifies and demands in the highest interests of the country the uninterrupted continuance through another term of his great but uncompleted work. Confronting unprecedented requirements at home and unexampled responsibilities abroad, he has met them with courage, fidelity and strength, which have given him an enduring place in the confidence and affection of his country.

## REPUBLICAN PLEDGES REDEEMED.

Every pledge of his administration has been faithfully redeemed. It has dispelled long business depression, restored the protection of American labor and industry, reawakened universal confidence, re-established a prosperity unparalleled, assured to labor the steadiest employment and the highest pay, opened new fields of enterprise and new markets for trade; it has brought to agriculture a better condition than for many years, fixed the gold standard upon firm foundations of law, made our national currency larger in volume and surer in value, and lifted our national credit to the highest plane any nation has ever reached.

## OUR WORLD DUTY PERFORMED.

In the broader field of world duty and influence it has met an unavoidable war for humanity with unequalled vigor and success, has crowned the matchless triumph of our arms on sea and land with courageous acceptance of its high and solemn obligations, has faithfully studied and sought equally the true honor of the nation and the greatest good of the peoples who have come under our flag, and has, through the wise use of expanded opportunity, led our country on pathways of greatness and renown.

## REPUBLICAN PRINCIPLES SUSTAINED.

We reaffirm the principle in which the Republican party had its birth and on which Abraham Lincoln was elected president, that the representatives of the people have full power over territory belonging to the United States, in harmony with and subject to the fundamental safeguards of our free institutions for liberty, justice and personal rights. We sustain the president and congress in exercising this power with due regard for the safety and welfare of the Union, and with the most just, generous, humane, and fraternal consideration for those over whom the authority of the nation is extended. We advocate for them free schools, full security for life, liberty and property, the most liberal measures for the development of their agriculture and industry, and the largest degree of local self-rule for which they are fitted. We have faith in American patriotism, character and capacity, and we know that American government will extend the inestimable blessings of freedom, law and civilization to the peoples who are brought under our protection.

## PARIS TREATY.

The provisions of the treaty of Paris, which took from Spain her title to the Philippine islands, and vested in the people of the United States unquestioned sovereignty over those islands, to be exercised for securing to the people thereof the blessings of liberty and law, opened for those people the only possible pathway of escape from oppression, and placed them on the road to progress in enlightenment and civilization. We approve the wisdom and humanity of the president in negotiating the treaty, of the senate in confirming it by a two-thirds majority, and of congress in appropriating the sum of \$20,000,000 provided therein to be paid, by an almost unanimous vote. The sovereignty thus deliberately assumed by the conjoint action of the great treaty-making and law-making powers of the United States it was the duty of the executive to maintain, and we approve the vigor, the wisdom and the success with which President McKinley has performed that duty, and the fortitude and heroism of the soldiers and sailors of the United States, through whom it was performed. That sovereignty must not be repudiated; and the high purpose of its origin must be accomplished in the establishment of peace and order, and the blessing of individual liberty among the peoples of the Philippine islands.

## OHIO'S STATESMEN ENDORSED.

The thanks and approbation of the Republicans of Ohio are due and are hereby tendered to Senators Foraker and Hanna and the fifteen Republican congressmen from Ohio, who stood unflinchingly for Republican principles. They have supported and sustained the administration of President McKinley, and we do hereby endorse and ratify their public acts as our representatives.

We reaffirm our previous declaration in favor of such legislation by congress as will encourage and promote an United States merchant marine, so that American-built, American-owned and American-manned ships may regain and retain the carrying of our foreign commerce.

We recognize in George K. Nash a governor worthy of our highest confidence and unqualified support. The administration of our state affairs by him and his official associates has been clean, efficient and commendable, and its policy tending to good government, economy and wisdom.

We indorse and approve the legislation enacted by the Seventy-fourth general assembly of Ohio.

#### REGULATION OF TRUSTS.

The Republican party of Ohio stands committed to legislative and executive opposition to the threatening combinations of capital that seek to restrict competition and stifle independent producers. We invite within our borders the capitalistic investments that are material to the industrial development of the state and the largest employment of labor, but we insist that injurious combinations shall be forbidden, and so-called trusts shall be so regulated from time to time and be so restricted as to guarantee immunity from hurtful monopoly, and assure fair treatment and protection to all competing industries.

The Republican party declares itself in favor of such legislation as will give to the municipalities of the state a uniform system of government.

### NATIONAL DEMOCRATIC PLATFORM.

[ADOPTED IN NATIONAL CONVENTION AT KANSAS CITY, MO., JULY 5, 1900.]

We, the representatives of the Democratic party of the United States, assembled in national convention, on the anniversary of the adoption of the declaration of independence, do reaffirm our faith in that immortal proclamation of the inalienable rights of man, and our allegiance to the constitution framed in harmony therewith by the fathers of the republic. We hold with the United States Supreme Court that the Declaration of Independence is the spirit of our government, of which the Constitution is the form and letter.

We declare again that all governments instituted among men derive their just powers from the consent of the governed; that any government not based upon the consent of the governed is a tyranny, and that to impose upon any people a government of force is to substitute the methods of imperialism for those of a republic. We hold that the Constitution follows the flag, and denounce the doctrine that an executive or Congress, deriving their existence and their powers from the Constitution, can exercise lawful authority beyond it, or in violation of it.

We assert that no nation can long endure half republic and half empire, and we warn the American people that imperialism abroad will lead quickly and inevitably to despotism at home.

#### PORTO RICO LAW DENOUNCED.

Believing in these fundamental principles, we denounce the Porto Rico law, enacted by a Republican Congress against the protest and opposition of the Democratic minority, as a bold and open violation of the nation's organic law, and a flagrant breach of the national good faith.

It imposes upon the people of Porto Rico a government without their consent, and taxation without representation. It dishonors the American people by repudiating a solemn pledge made in their behalf by the commanding General of our Army, which the Porto Ricans welcomed to a peaceful and unresisted occupation of their land. It doomed to poverty and distress a people whose helplessness appeals with peculiar force to our justice and magnanimity.

In this, the first act of its imperialistic programme, the Republican party seeks to commit the United States to a colonial policy, inconsistent with Republican institutions, and condemned by the Supreme Court in numerous decisions.

#### PLEDGES TO THE CUBANS.

We demand the prompt and honest fulfillment of our pledge to the Cuban people and the world that the United States has no disposition nor intention to exercise sovereignty, jurisdiction, or control over the island of Cuba, except for its pacification. The war ended nearly two years ago, profound peace reigns over all the island, and still the administration keeps the government of the island from its people, while Republican carpet-bag officials plunder its revenues and exploit the colonial theory, to the disgrace of the American people.

#### THE PHILIPPINE QUESTION.

We condemn and denounce the Philippine policy of the present administration. It has involved the republic in unnecessary war, sacrificed the lives of many of our noblest sons, and placed the United States, previously known and applauded throughout the world as the champion of freedom, in the false and un-American position of crushing with military force the efforts of our former allies to achieve liberty and self-government. The Filipinos cannot become citizens without endangering our civilization; they cannot become subjects without imperiling our form of government, and we are not willing to surrender our civilization or to convert the republic into an empire; we favor an immediate declaration of the nation's purpose to give to the Filipinos first, a stable form of government; second, independence; and, third, protection from

outside interference such as has been given for nearly a century to the republics of Central and South America.

The greedy commercialism which dictated the Philippine policy of the Republican administration attempts to justify it with the plea that it will pay, but even this sordid and unworthy plea fails when brought to the test of facts. The war of criminal aggression against the Filipinos, entailing an annual expense of many millions, has already cost more than any possible profit that could accrue from the entire Philippine trade for years to come. Furthermore, when trade is extended at the expense of liberty the price is always too high.

We are not opposed to territorial expansion when it takes in desirable territory which can be erected into states in the Union and whose people are willing and fit to become American citizens.

We favor trade expansion by every peaceful and legitimate means. But we are unalterably opposed to the seizing or purchasing of distant islands to be governed outside the Constitution and whose people can never become citizens.

We are in favor of extending the republic's influence among the nations, but believe that influence should be extended, not by force and violence, but through the persuasive power of a high and honorable example.

The importance of other questions now pending before the American people is in no wise diminished, and the Democratic party takes no backward step from its position on them, but the burning issue of imperialism growing out of the Spanish war involves the very existence of the republic and the destruction of our free institutions. We regard it as the paramount issue of the campaign.

#### THE MONROE DOCTRINE.

The declaration in the Republican platform adopted at the Philadelphia convention, held in June, 1900, that the Republican party "steadfastly adheres to the policy announced in the Monroe doctrine" is manifestly insincere and deceptive. This profession is contradicted by the avowed policy of that party in opposition to the spirit of the Monroe doctrine to acquire and hold sovereignty over large areas of territory and large numbers of people in the eastern hemisphere. We insist on the strict maintenance of the Monroe doctrine and in all its integrity, both in letter and in spirit, as necessary to prevent the extension of European authority on this continent and as essential to our supremacy in American affairs. At the same time we declare that no American people shall ever be held by force in unwilling subjection to European authority.

#### OPPOSITION TO MILITARISM.

We oppose militarism. It means conquest abroad and intimidation and oppression at home. It means the strong arm which has ever been

**fatal to free institutions.** It is what millions of our citizens have fled from in Europe. It will impose upon our peace-loving people a large standing army and unnecessary burden of taxation and a constant menace to their liberties.

A small standing army, with a well disciplined state militia, is amply sufficient in time of peace. This republic has no place for a vast military service and conscription.

When the nation is in danger the volunteer soldier is his country's best defender. The national guard of the United States should ever be cherished in the patriotic hearts of a free people. Such organizations are ever an element of strength and safety.

For the first time in our history and co-eval with the Philippine conquest has there been a wholesale departure from our time-honored and approved system of volunteer organization. We denounce it as un-American, un-Democratic, and un-Republican, and as a subversion of the ancient and fixed principles of a free people.

#### TRUSTS DENOUNCED.

Private monopolies are indefensible and intolerable. They destroy competition, control the price of all material, and of the finished product, thus robbing both producer and consumer. They lessen the employment of labor and arbitrarily fix the terms and conditions thereof, and deprive individual energy and small capital of their opportunity for betterment. They are the most efficient means yet devised for appropriating the fruits of industry to the benefit of the few at the expense of the many, and unless their insatiate greed is checked all wealth will be aggregated in a few hands and the republic destroyed.

The dishonest paltering with the trust evil by the Republican party in state and national platforms is conclusive proof of the truth of the charge that trusts are the legitimate product of Republican policies; that they are fostered by Republican laws, and that they are protected by the Republican administration in return for campaign subscriptions and political support.

We pledge the Democratic party to an increasing warfare in nation, state, and city against private monopoly in every form. Existing laws against trusts must be enforced and more stringent ones must be enacted providing for publicity as to the affairs of corporations engaged in interstate commerce and requiring all corporations to show, before doing business outside the state of their origin, that they have no water in their stock and that they have not attempted and are not attempting, to monopolize any branch of business or the production of any articles of merchandise, and the whole constitutional power of Congress over interstate commerce, the mails, and all modes of interstate communication shall be exercised by the enactment of comprehensive laws upon the subject of trusts.

Tariff laws should be amended by putting the products of trusts upon the free list to prevent monopoly under the plea of protection.

The failure of the present Republican administration, with an absolute control over all the branches of the national government, to enact any legislation designed to prevent or even curtail the absorbing power of trusts and illegal combinations, or to enforce the anti-trust laws already on the statute books, proves the insincerity of the high-sounding phrases of the Republican platform.

Corporations should be protected in all their rights and their legitimate interests should be respected, but any attempt by corporations to interfere with the public affairs of the people or to control the sovereignty which creates them should be forbidden under such penalties as will make such attempts impossible.

We condemn the Dingley tariff law as a trust-breeding measure, skillfully devised to give the few favors which they do not deserve and to place upon the many burdens which they should not bear.

#### INTERSTATE COMMERCE LAW.

We favor such an enlargement of the scope of the interstate commerce law as will enable the commission to protect individuals and communities from discriminations and the public from unjust and unfair transportation rates.

#### DECLARATION FOR 16 TO 1.

We reaffirm and indorse the principles of the national Democratic platform adopted at Chicago in 1896, and we reiterate the demand of that platform for an American financial system, made by the American people for themselves, which shall restore and maintain a bimetallic level, and as part of such system the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation.

#### CURRENCY LAW DENOUNCED.

We denounce the currency bill enacted at the last session of Congress as a step forward in the Republican policy which aims to discredit the sovereign right of the national government to issue all money, whether coin or paper, and to bestow upon national banks the power to issue and control the volume of paper money for their own benefit.

A permanent national bank currency, secured by government bonds, must have a permanent debt to rest upon, and if the bank currency is to increase with population and business the debt must also increase. The Republican currency scheme is therefore a scheme for fastening upon taxpayers a perpetual and growing debt for the benefit of the banks.

We are opposed to this private corporation paper circulated as money, but without legal-tender qualities, and demand the retirement of the national bank notes as fast as government paper or silver certificates can be substituted for them.

## SENATORS ELECTED BY THE PEOPLE.

We favor an amendment to the Federal constitution providing for the election of United States Senators by direct vote of the people, and we favor direct legislation wherever practicable.

## GOVERNMENT BY INJUNCTION.

We are opposed to government by injunction; we denounce the blacklist, and favor arbitration as a means of settling disputes between corporations and their employees.

## DEPARTMENT OF LABOR.

In the interest of American labor and the uplifting of the workingmen, as the cornerstone of the prosperity of our country, we recommend that Congress create a Department of labor, in charge of a secretary, with a seat in the Cabinet, believing that the elevation of the American laborer will bring with it increased production and increased prosperity to our country at home and to our commerce abroad.

## PENSIONS.

We are proud of the courage and fidelity of the American soldiers and sailors in all our wars; we favor liberal pensions to them and their dependents, and we reiterate the position taken in the Chicago platform in 1896, that the fact of enlistment and service shall be deemed conclusive evidence against disease and disability before enlistment.

## NICARAGUA CANAL.

We favor the immediate construction, ownership and control of the Nicaragua canal by the United States and we denounce the insincerity of the plank in the national Republican platform for an Isthmian canal in face of the failure of the Republican majority to pass the bill pending in Congress.

We condemn the Hay-Pauncefote treaty as a surrender of American rights and interests, not to be tolerated by the American people.

## ARID LANDS.

We favor an intelligent system of improving the arid lands of the West, storing the waters for purposes of irrigation, and the holding of such lands for actual settlers.

## STATEHOOD FOR THE TERRITORIES.

We denounce the failure of the Republican party to carry out its pledges, to grant statehood to the territories of Arizona, New Mexico, and Oklahoma, and we promise the people of those territories immediate statehood and home rule during their condition as territories, and we

favor home rule and a territorial form of government for Alaska and Porto Rico.

#### CHINESE EXCLUSION LAW.

We favor the continuance and strict enforcement of the Chinese exclusion law and its application to the same classes of all Asiatic races.

#### ALLIANCE WITH ENGLAND.

Jefferson said: "Peace, commerce, and honest friendship with all nations; entangling alliances with none."

We approve this wholesome doctrine and earnestly protest against the Republican departure which has involved us in so-called politics, including the diplomacy of Europe and the intrigue and land-grabbing of Asia, and we especially condemn the ill-concealed Republican alliance with England, which must mean discrimination against other friendly nations, and which has already stifled the nation's voice while liberty is being strangled in Africa.

#### SYMPATHY FOR THE BOERS.

Believing in the principles of self-government, and rejecting, as did our forefathers, the claim of monarchy, we view with indignation the purpose of England to overwhelm with force the South African republics. Speaking, as we do, for the entire American nation except its Republican officeholders, and for all free men everywhere, we extend our sympathy to the heroic Burghers in their unequal struggle to maintain their liberty and independence.

#### REPUBLICAN APPROPRIATIONS.

We denounce the lavish appropriations of recent Republican Congresses, which have kept taxes high, and which threaten the perpetuation of the oppressive war levies.

#### SHIP-SUBSIDY BILL.

We oppose the accumulation of a surplus to be squandered in such bare-faced frauds upon the taxpayers as the shipping subsidy bill, which under the false pretense of prospering American ship-building, would put unearned millions into the pockets of favorite contributors to the Republican campaign fund.

#### REPEAL OF THE WAR TAXES.

We favor the reduction and speedy repeal of the war taxes, and a return to the time-honored Democratic policy of strict economy in governmental expenditures.

#### CONCLUDING PLEA TO THE PEOPLE.

Believing that our most cherished institutions are in great peril, that the very existence of our constitutional republic is at stake, and that the decision now to be rendered will determine whether or not

our children are to enjoy those blessed privileges of free government which have made the United States great, prosperous, and honored, we earnestly ask for the foregoing declaration of principles the hearty support of the liberty-loving American people, regardless of previous party affiliations.

### OHIO DEMOCRATIC PLATFORM, 1900.

We, the Democrats of Ohio, in convention assembled, reaffirm our adherence to the Democratic national platform adopted at Chicago in 1896. But new and grave issues have arisen, threatening the safety of free government itself, which should command at this time the most serious attention of all patriotic citizens.

#### FLAG AND CONSTITUTION.

We enter our protest against the doctrine that the president or congress can govern acquired territory outside and independently of the Constitution of the United States, as a doctrine utterly subversive of every foundation principle of our government. The Declaration of Independence, the flag and the Constitution must everywhere stand together as emblems of human liberty and equal rights for all, and where one goes, all go. We therefore denounce imperialism under any pretense as necessarily leading to militarism, and as wholly foreign to our system of government, and declare that neither Congress nor the President can exercise any power not derived from the Constitution. We therefore denounce the Porto Rican tariff bill as a palpable violation of the doctrines of the fathers and of the fundamental principles of our government, which is based upon equal rights to all.

#### TRUSTS.

Trusts and monopolies, formed for the purpose of arbitrarily controlling production and prices in the interest solely of combined capital, if allowed to go, can result only in industrial serfdom for the mass of the people. We therefore oppose all such combinations, and demand that not only shall existing laws against combinations in restraint of trade be rigidly enforced, but, believing that protective tariffs and railway discriminations have been, and still are, the chief supporters of monopolies, we favor the removal of all duties from imports monopolized by trusts, and also demand the enactment and enforcement of such legislation as will prevent every species of discrimination, and believe that the courageous and honest application of the Democratic maxim of "equal rights to all and special privileges to none," will be effective to destroy, and thereafter prevent, any trust or combination of capital that is prejudicial

to the general welfare; we demand the repeal of all laws giving special privilege to any person, class, locality or interest.

#### CURRENCY LAW DENOUNCED.

We denounce the currency law passed by the present Congress, which transfers to the banks the entire control of the paper currency, thus laying the foundation for a money trust which will have power to control the prices of all property and to stimulate or strangle business; on the other hand, by requiring the government to redeem all forms of currency in gold, it continues and multiplies the evils of the "endless chain" and imposes upon the government the entire burden of supplying gold for export whenever demanded, and to obtain which it must issue bonds when necessary, thus necessitating not only a perpetual debt, but a perpetually increasing debt.

In lieu of a currency of bank promises to pay, to be expanded and contracted as the interests of banks alone may dictate, we demand that the general government shall not only coin the metals but shall issue and regulate the volume of paper currency also in the interest of all the people, and that all currency intended to circulate as money shall be legal tender and be maintained at a parity of value, and be regulated with a view to maintaining stable price levels and safe business conditions.

#### STANDING ARMY.

Great standing armies have ever been and are now a dangerous and constant menace to human liberty, and we demand the reduction of our standing army to a peace basis.

As Democrats we express our deepest sympathies for the Boers of South Africa, who, against such fearful odds, are heroically struggling for that same liberty for which our fathers fought a century and a quarter ago, and which at so much sacrifice they gained and handed down to us.

#### PHILIPPINE WAR.

We demand also that the unrighteous, unnecessary and unjust war now being waged for conquest against the Filipinos, who ask only for the right of self-government, be brought to a speedy close by a peace honorable to us and just to them, and in accordance with the principles of the Declaration of Independence.

We favor an unfaltering adherence to the Monroe doctrine and oppose entangling alliances, secret or open, with any foreign powers.

We favor the construction and control, by the United States alone, of an inter-ocean canal as a commercial highway for all nations.

We proudly and gratefully recognize the heroism, valor and glorious achievement of our gallant soldiers and sailors from Bunker Hill to the present time, but we regret that American soldiers are being unlawfully used in the name of liberty to crush and destroy dawning Republicanism in the Orient.

## PENSION DEPARTMENT.

We condemn the partial and unfair conduct of the pension department under the present administration.

We favor an immediate reduction of the war tax.

We favor the election of the president, the vice-president and United States senators by direct vote of the people.

As American citizens we deplore the scandals and corruption that have come to light under the present administration, and especially the scandalous developments in Cuba, which are but the natural result of irresponsible administration of provincial government, as attested by history both ancient and modern.

We favor the principle of the initiative and referendum in legislation; the passage of an eight-hour labor law; the more rigid inspection of mines and workshops by experienced and competent inspectors only; the prohibition of sweatshops.

We favor the enactment of laws for the uniform organization of villages and cities in Ohio.

## INSTRUCTED FOR BRYAN.

We affirm anew our undiminished faith in the acknowledged leader of our party, William J. Bryan, and demand his nomination at Kansas City for President of the United States, and the delegates elected by this convention are instructed so to cast their votes.

## PROHIBITION PLATFORM..

[ADOPTED IN CONVENTION AT CHICAGO, JUNE 27, 1900.]

## PREAMBLE.

The National Prohibition Party, in convention represented, at Chicago, June 27 and 28, 1900, acknowledge Almighty God as the Supreme Source of all just government. Realizing that this republic was founded upon Christian principles and can endure only as it embodies justice and righteousness, and asserting that all authority should seek the best good of all the governed, to this end wisely prohibiting what is wrong and permitting only what is right, hereby records and proclaims:

## DEFINITION OF PARTY AND ARRAIGNMENT OF PARTIES.

I. We accept and insert the definition given by Edmund Burke, that "a party is a body of men joined together for the purpose of promoting, by their joint endeavor, the national interest upon some particular principle upon which they are all agreed." We declare that there is no

principle now advocated, by any other party, which could be made a fact in government with such beneficent moral and material results as the principle of Prohibition, applied to the beverage liquor traffic; that the national interest could be promoted in no other way so surely and widely as by its adoption and assertion through a national policy, and the co-operation therein of every state, forbidding the manufacture, sale, exportation, importation and transportation of intoxicating liquors for beverage purposes; that we stand for this as the only principle, proposed by any party anywhere, for the settlement of a question greater and graver than any other before the American people, and involving more profoundly than any other their moral future, and financial welfare; and that all the patriotic citizenship of this country, agreed upon this principle, however much disagreement there may be as to minor considerations and issues, should stand together at the ballot-box, from this time forward, until Prohibition is the established policy of the United States, with a party in power to enforce it and to insure its moral and material benefits.

We insist that such a party, agreed upon this principle and policy, having sober leadership, without any obligation for success to the saloon vote and to those demoralizing political combinations of men and money now allied therewith and suppliant thereto, could successfully cope with all other and lesser problems of government, in legislative halls and in the executive chair, and that it is useless for any party to make declarations in its platform as to any questions concerning which there may be serious differences of opinion in its own membership, and as to which, because of such differences, the party could legislate only on a basis of mutual concessions when coming into power.

We submit that the Democratic and Republican parties are alike insincere in their assumed hostility to trusts and monopolies. They dare not and do not attack the most dangerous of them all, the liquor power. So long as the saloon debauches the citizen and breeds the purchasable voter, money will continue to buy its way to power. Break down this traffic, elevate manhood, and a sober citizenship will find a way to control dangerous combinations of capital.

We propose as a first step in the financial problems of the nation to save more than a billion of dollars every year, now annually expended to support the liquor traffic and to demoralize our people. When that is accomplished, conditions will have so improved that with a clearer atmosphere the country can address itself to the questions as to the kind and quantity of currency needed.

#### THE ISSUE PRESENTED.

2. We reaffirm as true indisputably the declaration of William Windom, when secretary of the treasury in the cabinet of President Arthur, that "Considered socially, financially, politically or morally, the

licensed liquor traffic is or ought to be the overwhelming issue in American politics," and that "the destruction of this iniquity stands next on the calendar of the world's progress." We hold that the existence of our party presents this issue squarely to the American people, and lays upon them the responsibility of choice between liquor parties, dominated by distillers and brewers, with their policy of saloon perpetuation, breeding waste, wickedness, woe, pauperism, taxation, corruption and crime, and our one party of patriotic and moral principle, with a policy which defends it from domination by corrupt bosses and which insures it forever against the blighting control of saloon politics.

We face with sorrow, shame and fear, the awful fact that this liquor traffic has a grip on our government, municipal, state and national, through the revenue system and saloon sovereignty, which no other party dares to dispute; a grip which dominates the party now in power, from caucus to Congress, from policeman to President, from the rumshop to the White House; a grip which compels the chief executive to consent that law shall be nullified in behalf of the brewer, that the canteen shall curse our army and spread intemperance across the seas, and that our flag shall wave as the symbol of partnership at home and abroad, between this government and the men who defy and defile it for their unholy gain.

#### THE PRESIDENT ARRAIGNED.

3. We charge upon President McKinley, who was elected to his high office by appeals to Christian sentiment and patriotism almost unprecedented and by a combination of moral influences never before seen in this country, that, by his conspicuous example as a wine-drinker at public banquets and as a wine-serving host in the White House, he has done more to encourage the liquor business, to demoralize the temperance habits of young men, and to bring Christian practices and requirements into disrepute, than any other President this republic has ever had. We further charge upon President McKinley responsibility for the army canteen, with all its dire brood of disease, immorality, sin and death, in this country, in Cuba, in Porto Rico and the Philippines; and we insist that by his attitude concerning the canteen, and his apparent contempt for the vast number of petitions and petitioners protesting against it, he has outraged and insulted the moral sentiment of this country, in such a manner and to such a degree, as calls for its righteous uprising and his indignant and effective rebuke.

We challenge denial of the fact that our chief executive, as commander in chief of the military forces of the United States, at any time prior to or since March 2, 1899, could have closed every army saloon, called a canteen, by executive order, as President Hayes in effect did before him, and should have closed them, for the same reasons which actuated President Hayes; we assert that the act of Congress, passed March 2, 1899, forbidding the sale of liquor, "in any post-exchange or canteen," by any "officer or private soldier" or by "any other person on

any premises used for military purposes in the United States," was and is as explicit an act of Prohibition as the English language can frame; we declare our solemn belief that the attorney general of the United States in his interpretation of that law, and the secretary of war in his acceptance of that interpretation and his refusal to enforce the law, were and are guilty of treasonable nullification thereof, and that President McKinley, through his assent to and indorsement of such interpretation and refusal, on the part of officials appointed by and responsible to him, shares responsibility in their guilt; and we record our conviction that a new and serious peril confronts our country, in the fact that its President, at the behest of the beer power, dare and does abrogate a law of Congress, through subordinates removable at will by him and whose acts become his, and thus virtually confesses that laws are to be administered, or to be nullified in the interest of a law-defying business, by an administration under mortgage to such business for support.

#### FOREIGN LIQUOR POLICY CONDEMNED.

4. We deplore the fact that an administration of this republic, claiming the right and power to carry our flag across seas, and to conquer and to annex new territory, should admit its lack of power to prohibit the American saloon on subjugated soil, or should openly confess itself subject to liquor sovereignty under that flag. We are humiliated, exasperated and grieved, by the evidence painfully abundant, that this administration's policy of expansion is bearing so rapidly its first fruits of drunkenness, insanity and crime under the hot-house sun of the tropics; and when the president of the first Philippine commission says, "It was unfortunate that we introduced and established the saloon there, to corrupt the natives and to exhibit the vices of our race," we charge the inhumanity and unchristianity of this act upon the administration of William McKinley and upon the party which elected and would perpetuate the same.

5. We declare that the only policy which the government of the United States can of right uphold as to the liquor traffic, under the national constitution, upon any territory under the military or civil control of that government, is the policy of Prohibition; that "to establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity," as the Constitution provides, the liquor traffic must neither be sanctioned nor tolerated, and that the revenue policy, which makes our government a partner with distillers and brewers and bar-keepers, is a disgrace to our civilization, an outrage upon humanity, and a crime against God.

We condemn the present administration at Washington because it has repealed the prohibitory laws in Alaska, and has given over the partly civilized tribes there to be the prey of the American grog-shop;

and because it has entered upon a license policy in our new possessions by incorporating the same in the recent act of Congress in the code of laws for the government of the Hawaiian Islands.

We call general attention to the fearful fact that exportation of liquors from the United States to the Philippine Islands increased from \$337 in 1898 to \$467,198 in the first ten months of the fiscal year ending June 30, 1900; and that while our exportation of liquors to Cuba never reached \$30,000 a year, previous to American occupation of that island, our exports of such liquors to Cuba, during the fiscal year of 1899, reached the sum of \$629,855.

#### CALL TO MORAL AND CHRISTIAN CITIZENSHIP.

6. One great religious body (the Baptist) having truly declared of the liquor traffic "that it has no defensible right to exist, that it can never be reformed, and that it stands condemned by its unrighteous fruits as a thing un-Christian, un-American, and perilous utterly to every interest in life"; another great religious body (the Methodist) having as truly asserted and reiterated that "no political party has a right to expect, nor should receive, the votes of Christian men so long as it stands committed to the license system, or refuses to put itself on record in an attitude of open hostility to the saloon"; other great religious bodies having made similar deliverances, in language plain and unequivocal, as to the liquor traffic and the duty of Christian citizenship in opposition thereto; and the fact being plain and undeniable that the Democratic party stands for license, the saloon, and the canteen, while the Republican party, in policy and administration, stands for the canteen, the saloon and revenue therefrom, we declare ourselves justified in expecting that Christian voters everywhere shall cease their complicity with the liquor curse by refusing to uphold a liquor party, and shall unite themselves with the only party which upholds the Prohibition policy, and which for nearly thirty years has been the faithful defender of the church, the state, the home and the school, against the saloon, its expanders and perpetuators, their actual and persistent foes.

We insist that no differences of belief, as to any other question or concern of government, should stand in the way of such a union of moral and Christian citizenship as we hereby invite, for the speedy settlement of this paramount moral, industrial, financial and political issue, which our party presents; and we refrain from declaring ourselves upon all minor matters, as to which differences of opinion may exist, that hereby we may offer to the American people a platform so broad that all can stand upon it who desire to see sober citizenship actually sovereign over the allied hosts of evil, sin and crime, in a government of the people, by the people and for the people.

We declare that there are but two real parties, to-day, concerning the liquor traffic—perpetuationists and Prohibitionists; and that patriot-

ism, Christianity and every interest of genuine and of pure democracy, besides the loyal demands of our common humanity, require the speedy union, in one solid phalanx at the ballot box, of all who oppose the liquor traffic's perpetuation, and who covet endurance for this republic.

### OHIO STATE PROHIBITION PLATFORM.

The Prohibition party of Ohio in convention assembled return thanks to Almighty God, the Sovereign and Supreme Ruler, for the many encouraging indications of an awakened conscience in the American people on the vital question of the suppression of the liquor traffic, the growing tendency of the courts to decide against the liquor dealer, and for the bright hopes, fresh courage and stirring enthusiasm with which he has inspired our rank and file, and

WHEREAS, The legalized liquor traffic is a public nuisance, imperilling the welfare of society, the safety of the state and the perpetuity of the Republic—a monstrous wrong against humanity and a violation of the laws of God—a breeder of crime and a hotbed of anarchy, an appalling drain upon the resources of the nation, a parasite on society, a pirate on business, and a pillager of labor, the producer of pauperism and the cause of increasing taxation, a corrupfor of politics and a tyrant that dominates public servants, neutralizing the influence of the home, paralyzing the work of the church, defeating the purpose of our educational institutions and hindering every work of progress and reform; therefore be it resolved,

1. That in the name of the eternal right and for the sake of our common citizenship we continue to wage an unrelenting warfare upon this iniquity and upon every organization and agency that stands in the way of its complete suppression.

2. That to accomplish this object the establishment of a political party with this mission for its chief concern, is an imperative necessity, and hence we adhere to our purpose of securing a new alignment of the voting force of the state and nation, and its united action to forever outlaw the manufacture, sale, importation, exportation and inter-state transportation of all alcoholic liquors for beverage purposes and thus place it on the same legal status with the bawdy-house and gambling hell, where it properly belongs.

3. That the nullification of the anti-canteen law, the transplanting of the American saloon to our new possessions and the defeat of the Clark Local Option Bill by the Ohio legislature, are simply the fruits of a system of partisan politics that depends on the division of the spoils and the control of the slum vote to perpetuate the party in power, shows the folly of depending upon these parties for legislation antagonistic to the liquor traffic and specially emphasizes the imperative necessity of the existence of the Prohibition party.

4. That no citizen shall be denied the right of suffrage on account of sex.

5. We appeal to every patriotic citizen who desires to free himself from complicity with the liquor traffic, secure release from the domination of the saloons and aid in dissolving the infamous partnership which now exists between the government and the liquor traffic through tax and license laws, to unite with us at the ballot box in our patriotic purpose to destroy this iniquity.

## NATIONAL PLATFORM OF THE UNION REFORM PARTY.

[ADOPTED BY THE OHIO STATE CONVENTION.]

Our present system of government vests the entire law making power in representatives. The people elect these representatives, but have no control over their actions.

An experience of over a hundred years in the practical operation of this system has proved that it does not provide a government of, by and for the people.

Representatives cannot always know certainly the will of their constituents, and even where that will has been clearly manifested it has been continually disregarded.

Legislative bodies from municipal councils to the national Congress have been controlled by corrupt influences. Legislation has consequently been in the interest of the corrupt few and against the interest of the voiceless masses.

Under this system the people are disfranchised on all matters of legislation. They are allowed to vote for men, but are denied the right to vote for measures. The people are governed by the laws which they did not enact and cannot repeal.

As the result of this system great abuses have arisen and politics has become a synonym for corruption.

The people have seen these abuses, but being disfranchised on all legislative questions have been unable to provide a remedy. They have become divided into parties and factions contending with each other in regard to the legislation needed. They have overlooked the fact that under our system of government they have power neither to enact legislation which they desire nor to prevent legislation to which they are opposed.

In search for relief the people have turned from one party to another, and have organized new parties without number.

But all such efforts have been fruitless, and must continue so to be as long as the people are disfranchised. They must be invested with the power to make their own laws before they can have laws made in their own interest.

So long as the people have no voice in legislation it is useless for them to contend among themselves regarding the legislation which they need, but cannot enact.

That we may have a government conducted in the interests of the people and which will provide for the peace, prosperity, morality and happiness of the entire nation, we must have a government which is in fact of the people, by the people and for the people, and in which the people shall rule.

We, therefore, reserving to ourselves the right to our individual opinions on all questions of legislation, unite for the accomplishment of this end—the enfranchisement of the American people and the establishment of a government in which the will of the people shall be supreme. And to this we pledge our united labors.

And we invite all persons who believe in the principles of liberty and the Declaration of Independence to unite in support of the following

#### PLATFORM.

Direct legislation under the system known as the initiative and referendum.

Under the "initiative" the people can compel the submission to themselves of any desired law, when, if it receives a majority of the votes cast, it is thereby enacted.

Under the "referendum" the people can compel the submission to themselves of any law which has been adopted by any legislative body, when, if such law fails to receive a majority of the votes cast, it will be thereby rejected.

### PLATFORM OF THE SOCIALIST LABOR PARTY.

[ENDORSED BY THE OHIO STATE CONVENTION.]

The Socialist Labor party of the United States, in Convention assembled, re-asserts the inalienable right of all men to life, liberty, and the pursuit of happiness.

With the founders of the American republic, we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold, furthermore, that no such right can be exercised under a system of economic inequality, essentially destructive of life, of liberty and of happiness.

With the founders of this republic, we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, that the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the obvious fact that our despotic system of economics is the direct opposite of our democratic system of politics, can plainly be

traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class, and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessities of life.

Human power and natural forces are thus wasted, that the plutocracy may rule.

Ignorance and misery, with all their concomitant evils, are perpetuated that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system the Socialist Labor party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the natural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence.

The time is fast coming, however, when in the natural course of social evolution, this system, through the destructive action of its failures and crises on the one hand, and the constructive tendencies of its trusts and other capitalistic combinations on the other hand, shall have worked out its own downfall.

We, therefore, call upon the wage workers of the United States, and upon all other honest citizens, to organize under the banner of the Socialist Labor party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers; so that, held together by an indomitable spirit of solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the Co-operative Commonwealth for the present state of planless production, industrial war and social disorder; a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

---

## PLATFORM OF OHIO SOCIAL DEMOCRATIC PARTY.

The Social Democratic party and the Socialist Labor party of Ohio, in convention assembled in the City of Columbus, July 4, 1900, do on this historic day declare that union of the two parties be and the same is hereby consummated under the name of the Social Democratic party,

and that we endorse the nominations of Eugene V. Debs, of Indiana, and Job Harriman, of California, for President and Vice-President, respectively.

The Social Democratic party of Ohio reaffirms its allegiance to the revolutionary principles of International Socialism and declares the supreme political issues in America to-day to be the contest between the working class and the capitalist class for the possession of the power of government. The Party affirms its steadfast purpose to use those powers, once achieved, to destroy wage-slavery, abolish the institutions of private property in the means of production, and establish the Co-operative Commonwealth.

In the United States, as in all other civilized countries, the natural order of economic development has separated society into two antagonistic classes—the capitalist, a comparatively small class, the possessors of all modern means of production and distribution (land, mines, machinery and means of transportation and communication), and the large and ever increasing class of wage-workers possessing no means of production.

This economic supremacy has secured to the dominant class the full control of the government, the pulpit, the schools and the public press, thereby making them arbiters of the fate of the working class, while it is reducing it to a condition of dependence, economically exploited and oppressed, intellectually and physically crippled and degraded and its political equality rendered a bitter mockery; and the contest between these two classes grows ever sharper. Hand in hand with the growth of monopolies goes the annihilation of small industries and the middle class depending upon them; ever larger grows the multitude of destitute wage-workers and of the unemployed, and ever fiercer the struggle between the class of the exploiter and the exploited, the capitalist and the wage-workers.

The evil effects of capitalist production are intensified by the recurring industrial crisis continually rendering the existence of the greater part of the population more precarious and uncertain, which amply proves that the modern means of production have outgrown the existing social order based on production for profit.

Human energy and natural resources are wasted for individual gain.

Ignorance is fostered that wage-slavery may be perpetuated. Science and invention are perverted to the exploitation of men, women and children.

The lives and liberties of the working class are recklessly sacrificed for profit.

Wars are fomented between nations; indiscriminate slaughter is encouraged; the destruction of whole races is sanctioned in order that the capitalist class may extend its commercial dominion abroad and enhance its supremacy at home.

The introduction of a new and higher order of society is the historic mission of the working class. All other classes despite their apparent or actual conflicts are interested in the upholding of the system of private ownership of the means of production. We therefore charge that in this country the Democratic, Republican and all other parties which do not stand for the complete overthrow of the capitalist system of production are alike the tools of the capitalist class.

The working class cannot, however, act as a class in the struggle against the collective power of the capitalist class except by constituting itself into a political party, distinct and opposed to all parties formed by the propertied classes.

We, therefore, call upon the wage-workers of the United States, without distinction to color, race or sex, and upon all citizens in sympathy with the historic mission of the working class to organize under the banner of the Social Democratic party, as a party truly representing the interests of the toiling masses and uncompromisingly waging war upon the exploiting class, until the system of wage slavery shall be abolished and the Co-operative Commonwealth shall be established.

Pending the accomplishment of this our ultimate purpose, we pledge every effort of the Social Democratic party for the immediate improvement of the condition of labor, and also for securing its progressive demands.

“Workingmen of all countries, unite! You have nothing to lose but your chains, and a world to gain!”

---

As steps in that direction we make the following demands:

First—Revision of our federal constitution, in order to remove the obstacles to complete control of government by the people irrespective of sex.

Second—The public ownership of all industries controlled by monopolies, trusts and combines.

Third—The public ownership of all railroads, telegraphs and telephones; all means of transportation and communication; all waterworks, gas and electric plants, and other public utilities.

Fourth—The public ownership of all gold and silver, copper, iron, lead, coal and other mines, and all oil and gas wells.

Fifth—The reduction of the hours of labor in proportion to the increasing facilities of production.

Sixth—The inauguration of a system of public works and improvements for the employment of the unemployed, the public credit to be utilized for that purpose.

Seventh—Useful inventions to be free, the inventor to be remunerated by the public.

Eighth—Labor legislation to be national instead of local, and international when possible.

Ninth—National insurance of working people against accidents, lack of employment and want of old age.

Tenth—Equal civic and political rights, for men and women, and the abolition of all laws discriminating against women.

Eleventh—The adoption of the initiative and referendum, proportional representation, and the right of recall of representatives by voters.

Twelfth—Abolition of war and the introduction of international arbitration.

## FUSION POPULIST OR PEOPLE'S PARTY PLATFORM

[ADOPTED IN NATIONAL CONVENTION AT SIOUX FALLS, SOUTH DAKOTA, MAY 10, 1900.]

The Peoples Party of the United States, in convention assembled, congratulating its supporters on the wide extension of its principles in all directions, does hereby reaffirm its adherence to the fundamental principles proclaimed in its two prior platforms and calls upon all who desire to avert the subversion of free institutions by corporate and imperialistic power to unite with it in bringing the government back to the ideals of Washington, Jefferson, Jackson and Lincoln.

It extends to its allies in the struggle for financial and economic freedom assurances of its loyalty to the principles which animate the allied forces and the promise of honest and hearty co-operation in every effort for their success.

To the people of the United States we offer the following platform as the expression of our unalterable convictions:

*Resolved*, That we denounce the act of March 14, 1900, as the culmination of a long series of conspiracies to deprive the people of their constitutional rights over the money of the nation and relegate to the gigantic money trust the control of the purse, and hence of the people. We denounce this act:

1. For making all money obligations, domestic and foreign, payable in gold coin or its equivalent, thus enormously increasing the burdens of the debtors and enriching the creditors.

2. For refunding "gold bonds" not to mature for years into long-time gold bonds, so as to make their payment improbable and our debt perpetual.

3. For taking from the treasury over fifty millions of dollars in a time of war and presenting it at a premium to bondholders to accomplish the refunding of bonds not due.

4. For doubling the capital of bankers by returning to them the face value of their bonds in current money notes, so that they may draw one interest from the government and another from the people.

5. For allowing banks to expand and contract their circulation at pleasure, thus controlling prices of all products.

6. For authorizing the Secretary of the Treasury to issue new gold bonds to an unlimited amount whenever he deems it necessary to replenish the gold hoard, thus enabling usurers to secure more bonds and more bank currency by drawing gold from the treasury, thereby creating an "endless chain" for perpetually adding to a perpetual debt.

#### HIT AT GREENBACKS.

7. For striking down the greenback in order to force the people to borrow three hundred and forty-six millions of dollars more from banks, at an annual cost of over twenty millions of dollars.

While barring out the money of the Constitution this law opens the printing mints of the treasury to the free coinage of bank paper money, to enrich the few and impoverish the many.

We pledge anew the Peoples Party never to cease the agitation until this eighth financial conspiracy is blotted from the statute books, the Lincoln greenback restored, the bonds all paid and all corporation money forever retired.

We reaffirm the demand for the reopening of the mints of the United States to the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, the immediate increase in the volume of silver coins and certificates thus created to be substituted, dollar for dollar, for the bank notes issued by private corporations under special privilege granted by the law of March 14, 1900, and prior national banking laws, the remaining portion of the bank notes to be replaced with full legal tender government paper money and its volume so controlled as to maintain at all times a stable money market and a stable price level.

We demand a graduated income and inheritance tax, to the end that aggregated wealth shall bear its just proportion of taxation.

We demand that postal savings banks be established by the government for the safe deposit of the savings of the people and to facilitate exchange.

With Thomas Jefferson, we declare the land, including all natural sources of wealth, the inalienable heritage of the people. Government should so act as to secure homes for the people and prevent land monopoly. The original homestead policy should be enforced and future settlers upon the public domain should be entitled to a free homestead, while all who have paid an acreage price to the government under existing laws should have their homestead rights restored.

#### NATIONS TO OWN RAILROADS.

Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people and on the nonpartisan basis, to the end that all may be accorded the same treatment in transportation, and that the extortion, tyranny and political power now exercised by the great railroad cor-

porations, which result in the impairment, if not the destruction, of the political rights and personal liberties of the citizen, may be destroyed. Such ownership is to be accomplished in a manner consistent with sound public policy.

Trusts, the overshadowing evil of the age, are the result and culmination of the private ownership and control of the three great instruments of commerce—money, transportation and the means of transmission of information—which instruments of commerce are public functions, and which our forefathers declared in the Constitution should be controlled by the people through their Congress for the public welfare. The one remedy for the trusts is that the ownership and control be assumed and exercised by the people.

We further demand that all tariffs on goods controlled by a trust shall be abolished.

To cope with the trust evil the people must act directly without the intervention of representatives who may be controlled or influenced. We therefore demand direct legislation, giving the people the lawmaking and veto power under the initiative and referendum. A majority of the people can never be corruptly influenced.

Applauding the valor of our army and navy in the Spanish war, we denounce the conduct of the administration in changing a war for humanity into a war of conquest. The action of the administration in the Philippines is in conflict with all the precedents of our national life—at war with the Declaration of Independence, the Constitution and the plain precepts of humanity.

#### FREEDOM FOR FILIPINOS.

Murder and arson have been our response to the appeals of the people who asked only to establish a free government in their own land. We demand a stoppage of this war of extermination by the assurance to the Filipinos of independence and protection under a stable government of their own creation.

The Declaration of Independence, the Constitution and the American flag are one and inseparable. The Island of Porto Rico is a part of the territory of the United States, and by levying special and extraordinary customs duties on the commerce of that island the administration has violated the Constitution, abandoned the fundamental principles of American liberty, and has striven to give the lie to the contention of our forefathers that there should be no taxation without representation.

Out of the imperialism which would force an undesired domination on the people of the Philippines springs the un-American cry for a large standing army. Nothing in the character or purposes of our people justifies us in ignoring the plain lesson of history and putting our liberties in jeopardy by assuming the burden of militarism, which is crushing the people of the old world. We denounce the administration for its

**sinister efforts to substitute a standing army for the citizen soldiery, which is the best safe-guard of the republic.**

**We extend to the brave Boers of South Africa our sympathy and moral support in their patriotic struggle for the right of self-government, and we are unalterably opposed to any alliance, open or covert, between the United States and any other nation that will tend to the destruction of human liberty..**

**And a further manifestation of imperialism is to be found in the mining districts of Idaho. In the Coeur d'Alene soldiers have been used to overawe miners striving for a greater measure of industrial independence. And we denounce the state government of Idaho and the federal government for employing the military arm of the government to abridge the civil rights of the people, and to enforce an infamous permit system which denies to laborers their inherent liberty and compels them to forswear their manhood and their right before being permitted to seek employment.**

#### **BAN ON CONTRACT LABOR.**

**The importation of Japanese and other laborers under contract to serve monopolistic corporations is a notorious and flagrant violation of immigration laws. We demand that the federal government shall take cognizance of this menacing evil and repress it under existing laws. We further pledge ourselves to strive for the enactment of more stringent laws for the exclusion of the Mongolian and Malayan immigration.**

**We endorse municipal ownership of public utilities and declare that the advantages which have accrued to the public under that system would be multiplied a hundred fold by its extension to natural interstate monopolies.**

**We denounce the practice of issuing injunctions in the cases of dispute between employers and employes, making criminal acts by organizations which are not criminal when performed by individuals, and demand legislation to restrain the evil.**

**We demand that United States senators and all other officials as far as practicable be elected by direct vote of the people.**

**Believing that the elective franchise and untrammelled ballot are essential to a government of, for and by the people, the People's Party condemns the wholesale system of disfranchisement by coercion and intimidation adopted in some states as un-Republican and un-Democratic. And we declare it to be the duty of the several state legislatures to take such action as will secure a full, free and fair ballot, and an honest count.**

**We favor home rule in the territories and the District of Columbia, and the early admission of the territories as states.**

**We denounce the expensive red tape system, political favoritism, cruel and unnecessary delay and criminal evasion of the statutes in management of the pension office, and demand the simple and honest execu-**

tion of the law, and the fulfillment by the nation of its pledges of service-pension to all its honorably discharged veterans. .

## MID-ROAD POPULIST OR PEOPLES PARTY PLATFORM.

[ADOPTED IN CONVENTION AT CINCINNATI, OHIO, MAY 10, 1900.]

The People's Party of the United States, assembled in national convention this 10th of May, 1900, affirming our unshaken belief in the cardinal tenets of the People's Party as set forth in the Omaha platform, and pledging ourselves anew to continued advocacy of those grand principles of human liberty until right shall triumph over might and love over greed, do adopt and proclaim this declaration of faith:

1. We demand the initiative and referendum and the imperative mandate for such changes of existing fundamental and statute law as will enable the people in their sovereign capacity to propose and compel the enactment of such laws as they desire, to reject such as they deem injurious to their interests and to recall unfaithful public servants.

2. We demand the public ownership and operation of those means of communication, transportation and production which the people may elect, such as railroads, telegraph and telephone lines, coal mines, etc.

3. The land, including all natural sources of wealth, is a heritage of the people, and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

4. A scientific and absolute paper money, based upon the entire wealth and population of the nation, not redeemable in any specific commodity, but made a full legal tender for all debts and receivable for all taxes and public dues, and issued by the government only without the intervention of banks and in sufficient quantity to meet the demands of commerce, is the best currency that can be devised, but until such a financial system is secured, which we shall press for adoption, we favor the free and unlimited coinage of both silver and gold at the legal ratio of 16 to 1.

5. We demand the levy and collection of a graduated tax on incomes and inheritances and a constitutional amendment to secure the same if necessary.

6. We demand the election of President, Vice-President, Federal judges and United States senators by direct vote of the people.

7. We are opposed to trusts, and declare the contention between the old parties on the monopoly question is a sham battle, and that no solution of this mighty problem is possible without the adoption of the principles of public ownership of public utilities.

\* From 1803 to 1850, the Secretary of State was elected by the General Assembly.

† The Democratic party of to-day claims lineal descent from the first Republican party with President Jefferson as its founder. Authorities differ as to the date when the party dropped the name Republican and assumed that of Democrat, it being ascribed to various dates between 1806 and 1820.

‡ Political parties were disorganized at the time of the election of John Q. Adams. He claimed to be a Republican as Jefferson, but his doctrines were decidedly federalistic. The opposition to his administration took the name of Democrat and elected Jackson President in 1828.

# **CENSUS OF OHIO**

**BY COUNTIES AND MINOR CIVIL DIVISIONS, WITH  
COMPARATIVE TABLES ETC. FOR 1900.**

(773)

## CENSUS OF OHIO.

The following tables give the aggregate population of Ohio by counties and minor civil divisions, according to the official count of the returns of the Twelfth Census, taken as of June 1, 1900.

Ohio was organized as a state November 29, 1802. The table following shows the population of Ohio at each census from 1800 to 1900, inclusive, together with the increase by number and per cent. during each decade.

## POPULATION OF OHIO: 1800 TO 1900.

Census years.	Population.	Increase.	
		Number.	Per cent.
1900 .....	4,157,545	485,229	13.2
1890 .....	3,672,316	474,254	14.8
1880 .....	3,198,062	532,802	20.0
1870 .....	2,665,260	325,749	13.9
1860 .....	2,339,511	359,182	18.1
1850 .....	1,980,329	460,862	30.3
1840 .....	1,519,467	581,564	62.0
1830 .....	937,903	356,608	61.3
1820 .....	581,295	350,535	151.9
1810 .....	230,760	185,395	408.7
1800 .....	45,365	.....	.....

The population of the state in 1900 of 4,157,545 as compared with the population in 1890, 3,672,316, represents an increase during the last ten years of 485,229, or 13.2 per cent. This rate of increase is slightly less than that for the decade immediately preceding, when it was 14.8 per cent., although the numerical increase is somewhat greater. During the earlier decades of the century the state increased in population rapidly, but the greatest numerical increase (581,564) occurred in the decade from 1830 to 1840. Since 1850 the development of the state in population has been comparatively steady.

The population of Ohio in 1900 is more than ninety-one times as large as that given for 1800, the census taken two years before it became a state.

The total land surface of Ohio is, approximately, 40,760 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 90.1; 1900, 102.0.

The following table shows the population of Ohio by counties at each census from 1800 to 1900, inclusive:
